

Accent Housing selects Keepabl to automate and interlink all their governance activities in a usable, comprehensive solution with easy collaboration for the wider business

Accent

'Onboarding with Keepabl was so smooth. The team helped transpose and migrate all our old spreadsheets into the app - a very useful exercise to ensure we had quality data.

Keepabl not only welcome our feedback, but act on it. They're constantly adding fantastic new features and enhancements.

Moving from a self-built set of spreadsheets and documents was daunting, but Keepabl made it painless. We're now using the full suite and have rolled it out to the business. We absolutely love it!

Samm Ellis

Data Protection & Compliance Lead
Accent Housing

THE CUSTOMER

Accent is a major national housing association providing affordable, safe, and sustainable homes for people on lower income and families in need.

Established in 1966, and originally known as Bradford & North Housing Association, Accent now serves more than 40,000 customers while owning and managing 21,000 homes across England.

Accent's main services are affordable rent for tenants, low-cost homeownership to help people step onto the property ladder, independent living for over 55s and community support schemes.

The Customer

Accent Housing

The Challenge

Moving from Spreadsheets with a focus on broad Privacy coverage that will drive internal engagement

The Solution

Keepabl's SaaS Solution

The Results

- o Fast, simple migration from Spreadsheets
- o Excellent account management and support, with feedback welcomed
- o A full suite of Privacy tools that are super easy to use and rollout to the wider business.

THE PRIVACY CHALLENGE

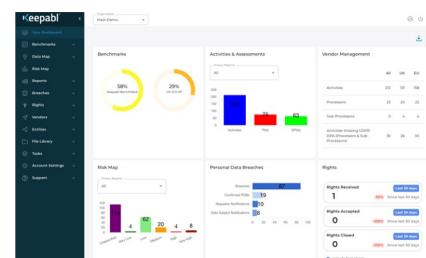

Accent process large amounts of personal and often sensitive data. Their comprehensive, internal, governance methods (relying heavily on spreadsheets) had served a valuable purpose, but they were proving restrictive as the business scaled. Accent needed a comprehensive Privacy solution that boasted easy usability to drive actual usage, and automation to roll out to the entire organisation.

As Samm Ellis, Accent's Data Protection & Compliance Lead, states: *"As most professionals in the field will appreciate, it's crucial to make sure that an organisation's Privacy processes are easy to find, understand and follow. We were looking for the holy grail of a comprehensive offering that was easy to migrate to, easy to use, delivered automation and efficiencies and kept staff engaged."*

Accent Housing selects Keepabl to automate and interlink all their governance activities in a usable, comprehensive solution with easy collaboration for the wider business

THE SOLUTION

Keepabl's global Privacy tool is an out-the-box, all-in-one solution that caters to all your Privacy needs, from an intuitive RoPA, to creating your own Assessments, intaking Breaches and Rights, or managing your Third Parties and Transfers.

Screenshots are examples only,
not from a customer instance

And with Comments, Tasks, and real-time Who's In, you can easily collaborate with remote colleagues to get the job done.

THE RESULTS

Accent is making use of the full suite of Keepabl's solutions, especially Assessments, which they specifically wanted to focus on.

Samm confirms: 'Keepabl provide some excellent out-of-the-box Assessments templates, which we've taken full advantage of. Keepabl also offer unlimited Users with fully tailored permissions, which has allowed us to roll out for the wider business for collaboration.'

Accent purchased Keepabl through a hassle-free procurement framework: *'Because we're public sector, we needed to obtain Keepabl through a procurement framework. Signing up to Keepabl through Trustmarque Ultima was clear, simple, and fast.'*
