

'After completing our 'get compliant' project by 25 May 2018, it rapidly became clear that managing GDPR for our MML entities in 3 countries using spreadsheets was taking up too much time and was even becoming counter-productive.

Having worked with Keepabl's tools in 2018, I was interested to see their SaaS solution.

With Keepabl's solution, the team can now easily manage ongoing compliance across 3 countries, with everything in one place.

Keepabl's Dashboard helpfully visualises our GDPR KPIs. We can give stakeholders tailored access, and we can work more efficiently with our external advisers.

All this saves me lots of time – and stress!

Alison Jackson
Office Manager

3 countries, 1 GDPR solution: How a multinational investment firm uses Keepabl to manage on-going GDPR compliance across Europe

CLIENT PROFILE

MML Capital provides capital to private businesses for expansion, acquisitions, recapitalisations and management buyouts, contributing between €10m and €50m as part of each bespoke investment.

They are experts in structuring elegant financial deals that get the job done.

Governance-aware

MML includes environment, social and governance concerns as part of the due diligence process, taking seriously its responsibilities towards both portfolio companies and investors, that MML delivers a responsible return.

The Customer

MML Capital Partners LLP & its sister entities in France & Ireland

The Challenge

Enable the group's ongoing compliance framework across multiple jurisdictions

The Solution

Keepabl's award-winning GDPR-compliance solution

The Results

In just 4 weeks:

- All onboarding complete
- New on-going Privacy Governance in place
- New, online, GDPR breach response solution in place

THE GDPR CHALLENGE

'I manage GDPR compliance across the 3 MML entities, in the UK, France and Ireland, with assistance from colleagues in our other offices and external advisers,' notes Alison Jackson, Office Manager at MML Capital, who is based in MML's London office.

Having worked hard and achieved 'Day 1' compliance, Alison was finding that managing ongoing compliance with files and spreadsheets was inefficient and taking up too much of her time.

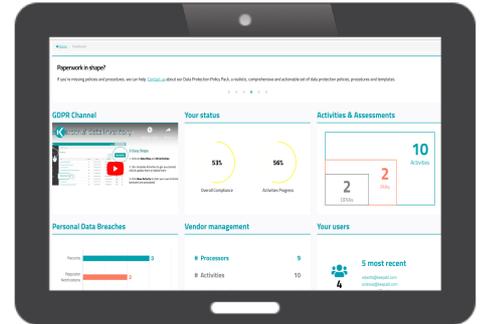

Alison had clear objectives: 'I needed a solution to help me with regular internal and external reporting, help me work with my colleagues across 3 countries, save me time and cost, plus give me typical SaaS benefits such as easy collaboration, added security, and access rights control.'

THE SOLUTION

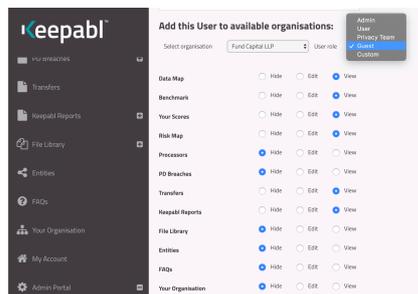

GDPR Reporting

78% of businesses report to the Board on GDPR¹. Keepabl's visual Dashboard gives you instant access to your GDPR KPIs on a single pane of glass.

See your GDPR progress, how many personal data breaches you've investigated and notified, how you're doing on impact assessments and with vendor management.

Secure, simple collaboration across teams & countries

Alison now has a secure and simple way to liaise with her colleagues in France and Ireland. Each user can have module-specific access rights and 2FA is built-into Keepabl, adding a powerful, extra layer of protection for MML's data.

'Keepabl has let us implement holistic Privacy Governance, integrating data protection across three different offices.' notes Alison, 'It's made our collaboration so much easier.'

THE RESULTS

Alison's met her objectives and can now manage MML's international GDPR compliance more quickly, with the reports and access control she needs: 'With Keepabl, I know we have a great GDPR answer and I can easily demonstrate our GDPR compliance status at any time.'
