

Leading independent Privacy & Security Consultant uses Keepabl to accelerate client's compliance and believes Keepabl will reduce ongoing costs by 50%-70%

'I know the value in automating compliance, and not just for start ups, but the Privacy Tech industry is still young and many solutions don't add enough value or are too complex for non-specialists.

Keepabl cleverly automates many Privacy tasks for you, making compliance easier for everyone.

Their holistic solution really accelerates compliance activities and I believe will save my clients 50-70% of their ongoing Privacy compliance over the next 3 years.'

Privacy & Security Consultant

THE CLIENT

An exciting fintech in London, UK that's rethinking trading, from infrastructure through to compliance, bringing innovation to the industry.

THE CONSULTANT

David Clarke is a UK-based expert in Privacy and Security who helps public and private sector clients with GDPR compliance.

THE CHALLENGE

The client needed to quickly implement a thorough Privacy Framework to deliver maintainable and efficient Privacy Governance.

As a fast-growth fintech, the client operates in a highly regulated industry with a myriad of obligations to satisfy, with personal data at the heart of their business. The challenge was to implement and maintain compliance to support their growth, and meet their obligations, without stifling the team.

'As well as meeting their own regulatory requirements, it was critical they could demonstrate that compliance to their investors, regulators and customers.'

Leading independent Privacy & Security Consultant uses Keepabl to accelerate client's compliance and believes Keepabl will reduce ongoing costs by 50%-70%

THE SOLUTION

David's client had chosen Keepabl's holistic solution, combining our intuitive SaaS and easy-to-adopt Privacy Policy Pack to implement a rapid, intuitive Privacy Framework focussed on GDPR.

Intuitive SaaS

Get a running start with innovations such as our Default Activities, importable with a single click and covering the most common processing activities.

Enjoy instant KPIs and reports, automatically updated as you update underlying records, to see where you are on GDPR and show stakeholders.

Privacy Policy Pack

Plain-language policies, procedures, templates and checklists giving you a trainable position on GDPR super fast.

THE IMPACT

Over to David: *'Keepabl sped up the project, letting me focus more on high impact components with my client.'*

I believe Keepabl will reduce my client's ongoing Privacy compliance costs by 50-70% over the next 3 years, by reducing:

- time spent by internal staff,
- need for external skills, and
- delay & related opportunity costs responding to stakeholder requests.'
