

St Giles

Turning a past into a future

St Giles Trust, a charity helping those from disadvantaged backgrounds achieve a positive future, chooses Keepabl to help manage data protection requirements

CLIENT PROFILE

St Giles Trust is an award-winning UK social justice charity using expertise and real-life past experiences to empower people who are not getting the help they need. St Giles use details of their clients to deliver services that enable them to turn their life around, regardless of their situation.

Between 2019 and 2020, St Giles helped over 20,000 people, assisting 5,568 individuals to find housing, and almost 700 disadvantaged people find work.

THE GDPR CHALLENGE

St Giles's Privacy by Design & by Default approach ensures they respect the trust of clients, staff, volunteers, donors and other parties through correct handling, communication and due diligence of personal data.

As a charity taking care of crucial services to individuals, St Giles already had great Privacy compliance. The team, however, wanted the benefits of a SaaS solution.

Deputy Chief Executive Malcolm Walker needed a way to improve the maintenance of the Article 30 Records of Processing Activities and ongoing compliance, and so chose Keepabl to help with the task at hand.

The Customer

St Giles Trust

The Challenge

Improving the maintenance of Article 30 Records of Processing Activities

The Solution

Keepabl's GDPR SaaS Solution

The Results

- Easier management of Article 30 records
- Improved Privacy Governance
- Improved GDPR reporting

'Reviewing the Keepabl KPIs and reports provides the information we need to ensure we are meeting requirements for data privacy management.'

With Keepabl, we have a more efficient way of maintaining the details and analysing risks.'

Malcolm Walker

St Giles

Turning a past into a future

St Giles Trust, a charity helping those from disadvantaged backgrounds achieve a positive future, chooses Keepabl to help manage data protection requirements

THE SOLUTION

From Sheet to SaaS

Keepabl allows you to migrate effectively from Word or Excel Sheets, with visually-engaging reporting that can be used to showcase your compliance to the Board or regulators.

Screenshots are examples only, not from a customer instance

THE RESULT:

MITIGATING RISK & BREACH

St Giles transferred existing details from Word documents into Keepabl in order to improve efficiency and ease of use.

'Using Keepabl, we can easily get to more details for each risk level and analyse where data is transferred and where it is stored.'

See how Keepabl can help your company achieve its Privacy goals.
