

Banking Circle, a next generation Payments Bank, chooses Keepabl's Privacy Management tool for scalable automation

**BANKING
CIRCLE**

'We needed a Privacy Management tool that allowed us to adhere to the highest privacy standards whilst also supporting our company's rapid international growth. Keepabl's automation and reporting does just that.

Onboarding was extremely straightforward with great support from a partner that really knows the subject area, meaning we could see instant results.

As we've grown, the solution has grown with us. Keepabl constantly adds valued new features and benefits.

It's clear Keepabl value their customers' feedback, and it's been good to see our comments and requests taken onboard.'

Kenny Walker

Global Information Security Officer & DPO
Banking Circle

THE CUSTOMER

Banking Circle is a next generation bank, powered by the latest technology. They enable global banking services with modern banking rails and an award-winning API.

Banking Circle's solutions power payments propositions for over 490 financial institutions, marketplaces and banks. In 2024, their payment volumes exceeded 700 billion Euros. This equated to over 10% of Europe's B2C e-commerce flows.

Their mission is to increase efficiency and reduce costs around cross-border transactions.

THE PRIVACY CHALLENGE

With rapid international growth, Banking Circle not only needed something to help manage their growing Privacy Governance requirements, but also to automate those practices to gain efficiencies in operations and reporting.

As Kenneth Walker, Banking Circle's Global Information Security Officer & Data Protection Officer, notes: *'Our rapid growth made managing data privacy across a growing global group, harder without the right software solution. We needed a solution we could onboard quickly that would deliver automation, visibility and scalability to handle our complexity and growth.'*

The Customer

Banking Circle

The Challenge

Looking for scalable privacy automation to support international growth

The Solution

Keepabl's SaaS Solution

The Results

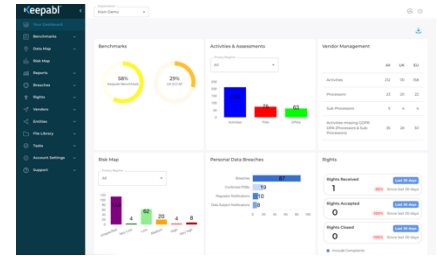

- o Fully customisable intake forms for Breaches and Rights
- o Email alerts and workflow automation
- o Instant Privacy KPIs and reports
- o Multi-jurisdictional support
- o Fantastic support every step of the way

THE SOLUTION

Keepabl automates Privacy practices so our customers can spend more time focusing on the real job to be done.

Unlimited Forms to intake Rights and Breaches, easy upload functions, default workflows with email alerts, and our instant KPIs and reporting all empower our users to set-up and manage their compliance framework quickly and easily.

Screenshots are examples only, not from a customer instance

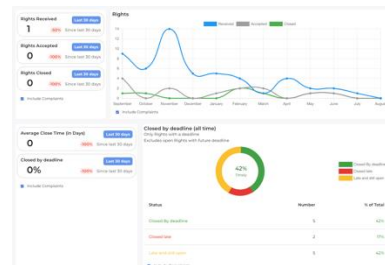

THE RESULTS

Banking Circle started by benchmarking its program against the frameworks in Keepabl.

Kenneth states: *'Benchmarking our privacy program was very easy to do – and very valuable. We now manage and report on this using Keepabl.'*

Banking Circle very much appreciates Keepabl's focus on the job to be done and our customers' needs.

'Keepabl has always listened to our feedback, constantly moving the solution forward with excellent new features that help us to manage Privacy better across our global group.'

Still struggling with spreadsheets?
